#### Trump is No Friend of Workers ... in the Courts

President Trump's first Supreme Court appointee, Neil Gorsuch, was the deciding vote in the Janus case to impose right to work on all public workers across the country. Right to work leads to lower wages for all working people.

Trump relies on the far-right Federalist Society and not the nonpartisan American Bar Association to rate candidates for judgeships before they are nominated. The ABA rated at least nine of Trump's nominees "not qualified."

Trump has stacked the federal courts with 200 judges who will still be serving in lifetime terms long after he is out of office. For the first time in more than 40 years, there are no vacancies on the appellate courts, where most of the major rulings are handed down.

Know the Facts!

Trump's first Supreme Court appointee, Neil Gorsuch, was the deciding vote in the Janus case to impose right to work on all public workers across the country. Right to work leads to lower wages for all working people.

Trump relies on the far-right anti-labor Federalist Society and not the nonpartisan American Bar Association to rate candidates for judgeships before they are nominated. The ABA rated at least nine of Trump's nominees "not qualified."

President Trump has stacked the courts with 200 judges who will still be serving long after he is out of office. For the first time in more than 40 years, there are no vacancies on the appellate courts, where most of the major rulings are handed down.
